Your Vision ← → Our Mission

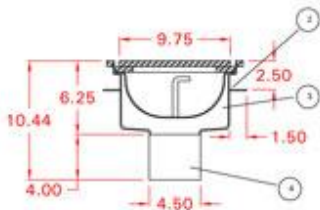

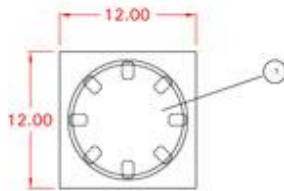

Service! Solutions! Satisfaction!

Drain sumps have USDA, FDA, CFIA, CE accepted T304 or T316L stainless steel, sanitary, single piece, seamless construction. This means no unsanitary welds! Drains are provided with a removable, perforated basket. Drains are also available with stainless steel P-Traps, or to customer specifications. Our sturdy stainless steel drains can support heavy lift truck traffic and have **excellent resistance to chemical attack and corrosion.**

All CUSTOM DRAINS are rated as Special Heavy Duty based on ASME A112.6.3. with a **load rating of over 10,000 lbs.**
